WINEMAKER NOTES
The fruit was destemmed and fermented in a combination of stainless steel and open fermenters using selected yeast strains. The ferments remained on skins for a period of 8 days in order to keep the tannins soft and supple and the fruit bright and fresh. Post ferment the wine was pressed and allowed to undergo malolactic fermentation in tank. After malolactic fermentation, the wine was racked to seasoned French and American oak hogsheads (300L) for a period of nine months.
