Alc 13.5 pH 3.56 TA 5.9

WINEMAKER NOTES
The Sangiovese fruit for this particular wine is made up of 3 different clones. At harvest each parcel was picked separately, destemmed and not crushed.

The fruit was then fermented in open fermenters, for a period of 9 days, in order to obtain optimum tannin and flavour extraction.

The must was then pressed and allowed to complete fermentation in tanks. Post year old malolactic fermentation, the wine was blended and racked into a combination of 3 and older American oak to allow the wine to build complexity.

WINEMAKER
Charles Whish
