VINEYARDS
The Reserve Grenache is grown at Blewitt Springs where the soils and deep sands contain ironstone and a clay layer. The vineyard has an open growth habit, allowing good exposure of the fruit helping ripen the fruit evenly.

TECHNICAL DETAILS
Alc 14.5% pH 3.39 g/l TA 6.3

WINEMAKER NOTES
The fruit is destemmed and then whole fruit is transferred to small open fermenters. The fermentation lasts up to 10 days at moderate temperatures. During the fermentation the wine is taken away from the skins and returned over the skins to aid in gentle extraction of the flavours and tannins. The wine develops in a combination of old French and American hogsheads.

WINEMAKER
